No Kid Hungry's Impact in District of Columbia

Seven year-old Jamel's parents aren't always able to provide enough for him to eat at home. This is especially true in the summer, when school meals aren't available and Jamel's family struggles to stretch their food budget. No Kid Hungry and our partners, like DC Hunger Solutions, are ending childhood hunger in the District. Our partners at DC Hunger Solutions

told us that kids like Jamel often spend the whole day at the library because it's a safe and air conditioned place to seek relief from the summer heat. Librarians were often paying for meals for these kids out of their own pockets. DC Hunger Solutions used No Kid Hungry funding to help purchase refrigerators that enabled eleven libraries to serve summer meals. Summer was once a season of hunger for many kids in DC, but we're changing that. By investing in practical solutions that connect children to food, we ensure the summer months are no longer a time of uncertainty for kids like Jamel.

About No Kid Hungry

No child should go hungry in America, but 1 in 6 kids will face hunger this year. Using proven, practical solutions, No Kid Hungry is ending childhood hunger today by ensuring that kids start the day with a nutritious breakfast and families learn the skills they need to shop and cook on a budget. When we all work together, we can make sure kids get the healthy food they need. No Kid Hungry is a campaign of national anti-hunger organization Share Our Strength.

Take Action
